

SINGLE DISC MACHINES.

140 TO 1600 RPM

**ROBUST BUILT. FOR POWERFUL PERFORMANCE.
AND WE HAVEN'T JUST STARTED TODAY.**

- ❶ Robust single-disc machines 'Made in Germany' – for over 70 years. For daily, long-term use.
- ❷ Low speed machines up to 300 rpm are equipped with a planetary gear set with three planet gears.
- ❸ The configuration of the maintenance free planetary gear and the powerful motor is the ideal pair guaranteeing consistently high performance.
- ❹ Three non-wearing, helical cut planet gears spread the power evenly across the entire working width, which allows for quiet running and easy control of the machine.
- ❺ A belt drive ensures low running noise in machines with high motor speeds of up to 1600 rpm.

- ❶ Work safely and with less operator fatigue: includes continuously variable handle grip and a safety button to prevent accidental operation.
- ❷ The body casings are made from either metal or out of shatter-proof plastic.
- ❸ Large operating range as standard: 12-metre waterproof and kink-proof mains cable.
- ❹ Flat construction to fit under radiators, pipes and shelves.
- ❺ The rubber bumper ring protects both the machine and the working environment.
- ❻ Various accessories available depending on use: tank, sprayer, suction unit with ring for dust-free operation and additional weights for increased surface pressure.

LOW SPEED. PROS WITH PLANETARY GEAR SET.
FOR ANY OBJECT, FOR ANY APPLICATION.

E 400ls

- ↳ Versatile, tried-and-tested classic machine for stripping, sanding, cleaning, shampooing and buffing – with 400-millimetre working width for use on small and medium-sized surfaces.
- ↳ The water supply is conveniently controlled via the handle bar.

bionic

- ↳ Efficient stripping, cleaning and shampooing – with 430-millimetre working width and pads in international standard 17-inch format.
- ↳ The shatter proof plastic casing protects furniture and fragile objects.

E 500lE

- ↳ With 1200-watt performance, weight of 42-kilogram and a 500-millimetre working width, this is the right machine for large surfaces and demanding tasks such as crystallization of stone flooring or stripping of any other hard flooring.

E 500ls

- ↳ With 1800 watts of power and a weight of 50 kilograms, this single-disc machine quickly completes work on large surfaces – be it stripping, crystallization, sanding parquet flooring or descaling hard floor surfaces at industrial sites.

THE ALL-ROUNDER.

DuoSpeed HS 403

- DuoSpeed**
- Two performance classes in one machine – all at the push of a button: 150 rpm at 1300 watts or 300 rpm at 1800 watts.
 - For stripping of hard floors, intermediate cleaning of textile floors as well as for light polishing work.
 - The maintenance-free planetary gear with three planet gears transfers the power optimally across the entire working width.

- HS 403**
- This machine – with a high-torque, centrally mounted motor – is ideal for economical spray cleaning and polishing in buildings with various surfaces.

AND THE SHINY SPECIALISTS.

HS 434 HS 1001 HS 1601

- HS 434**
- Single-disc machine for treatment of floor coatings and, with the optional suction unit, ideal for renovation of coatings to protect modern floor surfaces.
 - The belt drive allows large surface areas to be covered, with low noise levels of just 57 decibels when running.

- HS 1001**
- Easy to control and gets the work done fast: this powerful, high-speed machine with a belt drive ensures a high-gloss finish on large surfaces.

- HS 1601**
- A super shine on even the hardest surface coatings is guaranteed thanks to 1600 rpm.
 - The mechanical pressure limit protects the floor covering from damage.

THERMOPAD. THERMO-ACTIVE CARPET CARE. UNIQUE. AND ONLY FROM COLUMBUS.

Thermopad

- ❶ Patented, economical damp cleaning system to leave carpeted floors in offices, businesses, hotel rooms and IT centres clean and immediately usable.
- ❷ Impressive operating principle: the cleaning agent uses heat to quickly loosen even worn-in dirt, which is picked up fast and without residue by the Queen Bonnet Pad.
- ❸ The system works equally effectively on all kinds of carpet and contributes to maintaining the quality of the flooring.
- ❹ Whisper quiet: the machine produces very little noise when in operation and can be used during working hours.
- ❺ The heat supply can be altered by adjusting the thermostat, depending on the textile material.

- ❻ Better for the environment: the moistened pad allows for the deep and thorough cleaning of carpets with minimal use of cleaning agents.
- ❼ The special cleaner Maxil can be sprayed easily and evenly onto the floor with the pressure sprayer, and worn-in stains can be additionally targeted and treated.
- ❽ Expanded spectrum of uses: the Thermopad is also suitable for oiling of parquet and wooden floors – with less oil, deeper penetration and significantly shorter drying times compared to conventional methods.
- ❾ What's more, by using the Thermopad, wax stains in churches or catering areas can be quickly loosened and removed without leaving residue.

THE RIGHT ACCESSORY. MAKES MORE OUT OF YOUR MACHINE.

Additional weights

- Additional weights allow the grinding pressure to be individually adjusted for a uniform surface pattern, even on difficult surfaces.

Tank

- Twelve-litre plastic tank for the use of cleaning solution during work.
- The tank is easy to remove and has a large opening for quick filling.

Spray tool

- Suitable for even spraying across floors when cleaning, spray cleaning or crystallisation.
- Complete spray kit includes pump spray bottle, hose and a double clamp to fix the spray tool to the handle bar.

Suction unit

- Suction tool with connector piece and suction ring for dust-free polishing, sanding or cleaning.

Pad holder

- Universal, entirely dust-proof and waterproof, autoclavable up to 140°C: the innovative columbus pad holder with laser-welded connection between base plate and rubber plate.
- Thanks to a new manufacturing process and special plastic formulation, the pad holders have almost limitless durability and are completely recyclable.

Brushes

- columbus brushes have dense, stiff bristles across the entire exposed area, for increased stability, quieter running and less wear and tear.
- Diagonally positioned outer bristles allow cleaning work to the very edges.

Extras

- Grinding mesh and abrasive papers with grain from extra rough to extra fine.
- Paper bag for the suction unit.
- Extension cable 12- or 25-metre, waterproof and kink-proof.
